

Door Hanger Kit

This leaflet shows you how to
make lots of models like these

It's easy - it's fun!

The leaflet contains ideas for 6 Door Hangers and enough material to create another Door Hanger of your own design.

Cut out all the foam shapes and lay them roughly in place on the door hanger before starting to glue.

Remember to leave a space on the door hanger if you wish to include a name

- Use felt tip pens or foam to make names. (Pens not included).
- Stick hair round the faces before attaching them to the door hanger.
- Stick the foam shapes to the door hanger and decorate with wiggle eyes, stems, gemstones, sequins and spangles.
- Use sequin mesh for clothing and flowers
