

# Felt Finger Puppets

Make  
without  
Sewing

This leaflet shows you how to  
make Felt Puppets like these

It's easy - it's fun!

# Felt Finger Puppets

Use the templates below to cut out 2 x body shapes and 1 x head shape for each character.  
To ensure there is enough felt to make all 6 puppets, use the colours below.

## Puppet

Lion

Cat

Elephant

Dog

Girl

Boy

## Felt Body

Yellow

Black

Light Blue

Brown

Red

Green

## Felt Face

Yellow

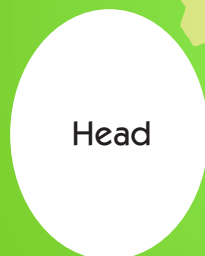

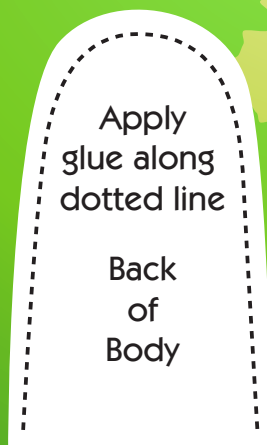

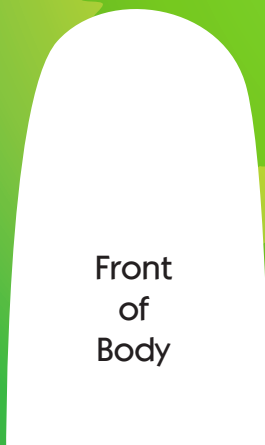

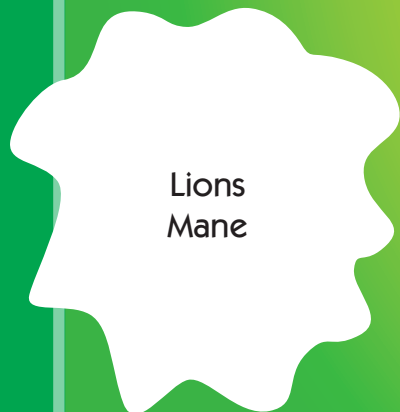

Black

Light Blue

Brown

Pink

Pink

### Body

Lay one felt body flat and carefully glue along the sides and the rounded end. Do not glue across the straight bottom edge as this is where your finger will go (see diagram opposite).

Position a second body directly on top of the first and gently press the edges together to ensure the glue sticks.

### Head

Stick the head to the body except for the lion where you need to stick the mane to the body first. (See mane template opposite).

## Other features

Cut out shapes from felt to make arms, hair, ears, noses and mouths.

The boy's trousers are also cut from felt.

Use pipe cleaners for whiskers, tails and trunk.

Decorate with sequins.

### Elephant's trunk

Wrap a blue pipe cleaner around a pencil to make a spiral and stick to face. (See diagrams).

**IMPORTANT:** It is best to leave the puppets to dry overnight before using.
